

Annual Post Budget Forum and Dinner

6.30 - 10.30pm

Wednesday 13th May 2009

Mural Hall, Parliament House, Canberra

The NTA Annual Dinner has been growing in importance each year. It attracts attendance from industry as well as parliamentarians and key stakeholders. In 2009 for the first time, the dinner is combined with NTA's other major Canberra event, our Post Budget Forum. The economic analysis and presentation is conducted by respected economist Chris Murphy from Econtech (now part of KPMG).

As this presentation is conducted within Parliament House and is offered free of charge to parliamentarians, advisers and other key stakeholders it has attracted a strong following from those interested in the economic analysis delivered so soon after the Budget.

This is a key event on the industry calendar and an opportunity for the tourism industry to forge stronger links with all key stakeholders.

Support your industry and join us in Canberra for this important event.

Dress: Business Attire

Presented by

National Tourism Alliance

The United Voice of the Australian Tourism Industry

Supported by

A taste of tourism

The National Tourism Alliance (NTA) is the national industry body formed to create unity within the tourism industry and promote a single voice to government.

Our members include the major national industry associations and all state tourism industry councils.

Post Budget Forum and Dinner, Wednesday 13th May , 2009.

The event will be presented in three phased events. Your registration will cover the cost of all three.

Event 1: 6.30-7.30pm Cocktails

We will commence with drinks and hors d'oeuvres to allow networking time between industry and government. The Chair of NTA and Minister for Resources Energy & Tourism, Martin Ferguson MP, will speak during this phase.

Event 2: 7.30-9pm Dinner

This will be a sit down main course during which time Chris Murphy from Econtech (KPMG) will present their post-budget analysis with an emphasis on the impact on tourism.

Event 3: 9-10.30pm Supper

This will include beverages, dessert, cheese& fruit in a networking environment.
